

December is the most anticipated month for Puerto Ricans. Do not mention the reason, but, in case of doubts, listening to December is synonymous with Christmas. It has not ended well the famous day of 'Halloween', when we are already buying the Christmas decorations: the garlands to decorate the house, the roof lights, the Christmas tree, the decorations for the tree, the decoration for inside the house, clothes for the dog, Christmas hats and many things we did not need. And of course, you cannot miss the food.

Every Christmas, in Puerto Rico is celebrated in a very peculiar way. "Parrandas" are performed and, above all, the Christmas lights in different towns. This is a way to start Christmas in the town. Decorating the streets with lots of lights and putting a Christmas tree in the middle of the town. I wanted to give them the invitation to come to our beautiful island for Christmas and to enjoy a Puerto Rican-style Christmas.
